

BoT Pre-Testing On-Site Inspection — Document Pack

Onsite: 9 July 2026 · **Testing commences:** 15 July 2026 · **Sandbox Ref:** LD.170/515/02/1254 **Contact:** Victor Muhagachi, CTO — victor@nedapay.xyz

Documents in this pack (drafted 8 July 2026)

#	DOCUMENT	CHECKLIST ITEM(S)
—	figures/system-architecture.svg	§2 Architecture diagram
01	System Architecture	§2 Technology
02	AML/CFT & STR Procedure	§4 AML/CFT
03	Incident Response Plan	§5 Ops & cybersecurity
04	Key Management & Access Controls	§5 Ops & cybersecurity
05	Consumer Complaint Handling Process	§6 Consumer protection
06	Reserve Composition & Custody	§3 Reserve arrangements
07	Sandbox Tester Disclosure (EN + SW)	§6 Consumer protection / §13

These are **drafts** for review. They state the current control state honestly (e.g., Cohort-1 self-KYC with the Selcom bank-grade roadmap; mint and burn currently share one key). Review names, dates, and any figures before submission.

Live-system evidence (walk BoT through the Oversight portal)

- **Reserve Proof + Daily Attestation (10:00 EAT)** — reserve vs circulating nTZS, 1:1 (§3).
- **Audit trail with cash-before-mint provenance** — proves mint-only-after-cash (§2, §4).
- **Issuance Controls** — 1M / 2M / 60M / 100M limits, enforced (§4).
- **Identity & AML** — honest KYC cohorts + control inventory (§4).
- Contract verifiable on **BaseScan** — 0xF476BA983DE2F1AD532380630e2CF1D1b8b10688 (§2).

Still required — business / legal (not producible from the system)

ITEM	CHECKLIST	NOTE
Org chart & roles (Victor, David, Baraka)	§1	One-pager
Board/founder resolutions tied to sandbox	§1	Legal
Reporting-line ownership (monthly/mid-term/final)	§1	Assign owners
Selcom custody confirmation letter	§3	Highest-priority gap — flag proactively if pending
Cantina audit report (commit e7ac3ac4 , zero findings)	§2	Ensure the PDF is on hand
Team monitoring capacity (15 Jul–16 Oct)	§5	Confirm staffing

Two decisions for the day

1. **Selcom custody letter** — present executed letter, or an honest interim-custody plan + timing.
2. **Live demo vs. wallet-creation pause** — demo on an existing test account, or temporarily set `WALLET_CREATION_PAUSED=false` for the walkthrough then re-pause. Frame the pause as a **strength**: no wallet is issued without KYC (Parameter 8).
